ABOUT ME

Passionate and curious IT student with a love for big data. I love to explore and learn new topics, enthusiastic to explore new cultures and devoted to life-long learning.

WORK EXPERIENCE

Logistics (Student)

Center Parcs Vossemereen, Lommel | 2021 – 2026

Ensure all cottages are fully equipped by promptly delivering missing items to guests. Always requiring clear and professional communication.

Stocker & Cashier (Student)

Colruyt, Lommel | 2017 – 2020

Maintain optimal shelf inventory through timely restocking and product rotation. Process customer transactions accurately while delivering friendly, efficient service.

PROJECTS

DAF Trucks (School)

Creating an embedded and interactive dashboard for DAF Trucks, giving insights into machine performance.

IOK Waste Management (School)

Designing a Microsoft 365 solution for IOK Waste Management to optimize accounting processes and centralize data. This was a 3-person project.

Mobilab & Care (Internship)

Build and design a dashboard for Mobilab & Care, using critical and confidential research data.

Deloitte – Salesforce (School)

Implementing Salesforce for a fictional sales company, together with client meetings to improve their sales processes. This was a 3-person project assisted by Deloitte.
